Dal-Sleeve™

PIPE SLEEVING

Specifications:

Furnish and install Dal-Sleeve™ pipe sleeve to protect copper and plastic piping in concrete. Most often used in concrete slab construction for pipes that are set in concrete. Dal-Sleeve™ is a trademark of Dallas Specialty pipe sleeve.

Material: Polyethylene
Covers Pipes: 1" up to 6"

Directions

- Pull sleeving from the box and cut desired length.
- Insert pipe into sleeve prior to pouring concrete slab.
- Secure the end of sleeve with tape or other material capable of holding sleeve in place until pouring is complete.

- Prolonged exposure to sunlight is not recommended.
- Sunlight will eventually break down polyethylene tubing.
- Read all directions and cautions prior to using this product.
